

Harish Gowli

Software Developer | Full Stack Development | JavaScript | MERN

+91 9704601562 [✉ gowliharish321@gmail.com](mailto:gowliharish321@gmail.com) [🌐 HarishGowli](#) [🔗 HarishGowli](#) [🌐 Portfolio](#)

Professional Summary

Software Developer with hands-on experience building and deploying full-stack applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in AI/LLM API integration, authentication, and REST APIs. Strong foundation in Java, DSA, and OOP.

Technical Skills

Languages: Java, JavaScript, Typescript, Python, SQL, C
Frontend: React.js, Redux Toolkit, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, MySQL
AI : Gemini API, LLM Integration
Tools: Git, GitHub, Postman, Vercel, Netlify, Render, Notion, AI Tools
Core: Data Structures & Algorithms, OOP, Authentication, API Integration, MVC

Experience

Infosys Springboard

Full-Stack Development Intern

Remote | [Certificate](#) | [🔗 Live Project](#)

October 2025 – December 2025

- Developed and deployed **SkillBridge**, a responsive MERN full-stack platform connecting NGOs and volunteers through role-specific dashboards and a user-friendly interface.
- Built scalable **RESTful APIs** for authentication and opportunity management, implementing role-based JWT authentication, bcrypt password hashing, protected routes, and secure user access.
- Designed **MongoDB data models** and CRUD operations for opportunity management, including skill/location-based filtering to improve data retrieval and user experience.

Projects

AI Resume Analyzer | React, Node.js, Express, MongoDB, Gemini AI

[🔗 Live](#) | [🔗 GitHub](#)

- Built and deployed a full-stack **AI resume analysis platform** that evaluates resumes against job descriptions and generates ATS-style scores, matched/missing keywords, strengths, weaknesses, and actionable improvement suggestions using the Gemini API.
- Developed **RESTful backend APIs** with Node.js and Express.js, implementing JWT-based authentication, bcrypt password hashing, protected analysis-history routes, PDF resume parsing, and MongoDB persistence.
- Designed a responsive React frontend with resume upload, job-description analysis, authentication, results visualization, and historical analysis management, and deployed the application using Vercel, Render, and MongoDB Atlas.

FocusGuard — Smart Website Distraction Blocker | JavaScript, Chrome Extension Manifest V3 [🔗 Live](#) | [🔗 GitHub](#)

- Built a **Manifest V3 Chrome extension** that automatically blocks distracting websites using temporary timers and recurring day/time-based schedules.
- Implemented **multi-website blocking**, domain normalization, persistent storage, unique DNR rule management, automatic expiration, and alarm-based blocking transitions.
- Developed a **scheduling engine** supporting custom weekdays, time ranges, overnight schedules, conflict handling, and a dashboard for creating, editing, monitoring, and removing website blocks.

Contact Manager | MERN, JWT, bcrypt, REST APIs

[🔗 Live](#) | [🔗 GitHub](#)

- Built a **full-stack contact management platform** using the MERN stack, enabling users to securely register, authenticate, and manage personal contacts through a responsive React.js dashboard.
- Implemented **JWT-based authentication**, bcrypt password hashing, protected routes, and backend authorization to prevent unauthorized access to user data.
- Developed **user-scoped RESTful APIs** with Express.js for complete contact CRUD operations and designed MongoDB data models with user-specific access control and security middleware.

Education

Sri Venkateswara College Of Engineering
B.Tech in Information Technology | **CGPA: 8.4**

Tirupati, AP
2023 – 2026

Dr. K.V.S.R Institute of Technology
Diploma in Mechanical Engineering | **80.72%**

Kurnool, AP
2020 – 2023
