OBJECTIVE

Highly motivated final-year Information Technology student with a solid foundation in MERN stack development, programming, and Data Structures. Seeking a software development role to apply technical skills, contribute to impactful projects, and grow in a dynamic environment.

EDUCATION

B.Tech in Information Technology, Sri Venkateswara College Of Engineering, Tirupati **Expected 2026**
CGPA: 8.33/10 AP, India

Diploma in Mechanical Engineering, K V Subba Reddy Institute Of Technology, Kurnool **2020 - 2023**
Percentage: 80.72% AP, India

SKILLS

Programming Languages	C, Java
FrontEnd	HTML5, CSS3, JavaScript, Bootstrap, Tailwind, ReactJs
BackEnd	NodeJs, ExpressJs
Databases	MySQL, MongoDB
Developer Tools	Git/Github, VS Code, Postman, REST APIs, MS 360, AI Tools

EXPERIENCE

Infosys | Full-Stack Development Intern | Remote **October 2025 - December 2025**

- Developed and deployed "SkillBridge", a full-stack web platform connecting skilled volunteers with NGOs for short-term and long-term opportunities, using the MERN stack (MongoDB, Express.js, React.js, Node.js), improving accessibility and collaboration between users.
- Implemented role-based authentication and authorization (Volunteer and NGO), secure user registration/login with password hashing, profile management, and dynamic dashboards tailored to each role.
- Built core features including opportunity CRUD operations, skill/location-based filtering, and application tracking with real-time database updates.
- Developed essential soft skills in teamwork, communication, problem-solving, project management, adaptability, leadership, and a strong work ethic, contributing significantly to my professional growth.

PROJECTS

SkillBridge: Developed and deployed "SkillBridge", a full-stack web platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) to connect skilled volunteers with NGOs for short-term and long-term opportunities. Implemented role-based authentication with secure login, password hashing, profile management, and dynamic dashboards. Built core features including opportunity CRUD operations, skill/location-based filtering, and real-time application tracking, while strengthening teamwork, communication, and problem-solving skills.

Harish Tech News: Developed a fully responsive web application leveraging HTML, CSS, and JavaScript. Integrated the News API for dynamic, real-time content updates and implemented advanced search functionality. Focused on delivering an optimized user experience with intuitive design and seamless navigation. ([Project Link](#))

EXTRA-CURRICULAR ACTIVITIES

- Manage [Endhukoo Cheppalanipinchindhi](#) is a page where I produce content about real-life insights that help me clear my thoughts.
- Served as a Volunteer for Campus Drives and College events
- Organised Events in Department Fests and College Annual Events
- Earned Diamond Badge (Maintained 100 Days Streak on CodeChef).
